vallimyh92@gmail.com | <https://github.com/valarie-lim> | <https://www.linkedin.com/in/valarielyh/>

PROFESSIONAL SUMMARY

IT student with hands-on experience building web applications using React, Next.js, JavaScript, ASP.NET, SQL Server, and Java. Experienced in developing responsive interfaces and database-driven systems, as well as deploying applications using Vercel and Azure, with GitHub for version control. Brings strong problem-solving skills, attention to detail, and experience working in fast-paced commercial environments. Currently seeking a Junior Web Developer or Frontend Developer opportunity.

TECHNICAL SKILLS

Languages: JavaScript, VB.NET, Java, C++

Frontend: React, Next.js, HTML5, CSS3, Responsive Design

Backend & Integration: ASP.NET Web Forms

API: Basic API Knowledge, OAuth 2.0

Database: Microsoft SQL Server, SQL

Cloud & Tools: Azure, Vercel, GitHub, Visual Studio, VS Code, SSMS, Figma, Tableau

CMS & Marketing: WordPress (WooCommerce, LMS, Booking), Elementor, Webflow, ClickFunnels

EDUCATION

Diploma in Information Technology | INTI International University

Expected Graduation: Jan 2027 | Current CGPA: 3.63

Coursework: Software Engineering, Web Development, OOP, Data Structures & Algorithms, Rapid Application Development, Relational Database Design

PROFESSIONAL EXPERIENCE

Web Development & Design Initiatives (Independent) | 2020 – Present

- Developed and deployed web solutions for simulated business use cases, including e-commerce, booking systems, and LMS platforms
- Built web projects using Vite, Next.js, React, Vercel, and GitHub

Pastry Assistant | Sweet Secret Cake House, Auckland, NZ | Jul 2023 – Sep 2024

Excelled in a high-pressure, time-sensitive commercial environment, demonstrating strong teamwork, meticulous attention to detail, and a commitment to quality.

PROJECTS

Personal Portfolio Website

- Stack: React, Vite, JavaScript, HTML/CSS, JSON, Local Storage
- Developed and deployed a responsive portfolio with dynamic JSON-based project rendering, persistent dark/light theme, and WhatsApp contact integration.

Live Demo: <https://valarie-lim.vercel.app/>

GitHub: <https://github.com/valarie-lim/portfolio>

Sunday School Database Management System (Capstone)

- Stack: ASP.NET, SQL Server, MyASP.net, MonsterASP.net
- Developed a cloud-hosted system featuring student/teacher management, attendance tracking, and report generation.
- Implemented role-based access control, secure password hashing, and SQL injection prevention.

Live Demo: <https://bem-sun-sch.runasp.net/>

GitHub: <https://github.com/valarie-lim/sunday-school-management-system>

Internet Banking System

- Stack: ASP.NET, SQL Server, Azure, MonsterASP.net
- Led a team in building a banking application with account registration, transaction management, and admin oversight.
- Hardened security via HTTPS redirection, SSL certification, and parameterized queries.

Live Demo: <http://ckvsystem.runasp.net/>

GitHub: <https://github.com/valarie-lim/internet-banking-system>

Smart Retail Management System

- Stack: Java, IntelliJ IDEA, Git
- Led a development team in creating a console-based application, demonstrating robust OOP design, CRUD operations, and input validation.

GitHub: <https://github.com/valarie-lim/smart-retail-management>

Restaurant Business Website

- Stack: Next.js, React, JavaScript
- Developed a responsive restaurant website featuring WhatsApp integration, Google Maps, and event enquiry forms.

Live Demo: <https://sampan-house.vercel.app/>

GitHub: <https://github.com/valarie-lim/sampan.house>

ADDITIONAL PROJECTS

Restaurant Business Website (Vanilla JS)

Built from scratch with client-side data persistence via Browser Storage APIs.

Live Demo: <https://valarie-lim.github.io/my-restaurant/>

GitHub: <https://github.com/valarie-lim/my-restaurant>

WordPress Portfolio

Built Landing Page, E-commerce, Hotel Booking, and LMS platform to master CMS workflows, SEO, and website optimization.

PROFESSIONAL DEVELOPMENT

JavaScript Certification | freeCodeCamp (in progress)

- Developing proficiency in JavaScript fundamentals, DOM manipulation, event handling, asynchronous programming, functional programming, and accessibility.
- Completed multiple hands-on certification projects; currently progressing through advanced JavaScript topics and the final certification requirements.

WordPress Website Development | Woodpecker Academy (2024-Current)

Completed comprehensive training in full-stack WordPress development, SEO, Google/FB ads, and site optimization, applying skills to build multiple production-ready portfolio projects.

SOFT SKILLS & LANGUAGES

- **Soft Skills:** Problem Solving, Attention to Detail, Continuous Learning, Team Collaboration, Time Management, Adaptability, Communication
- **Languages:** Mandarin, English, Malay, Cantonese, Hokkien
